**REMARKS**

Applicants are in receipt of the Office Action mailed July 1, 1005. Claims 1, 3, and 8 have been amended. Claims 2, 7, and 12-23 have been cancelled. Claims 28 through 32 have been added.

**A. Restriction**

The Examiner indicated that the patent application contains claims directed to the following alleged patentably distinct inventions:

- I. Claims 1-11 and 24-27, drawn to a form panel, classified in class 249, subclass 189.
- II. Claims 12-23, drawn to a wall forming system, classified in class 249, subclass 47.

Based on review of the claims, Applicants elect the claims of Group I. The claims of Invention II have been cancelled.

**B. Election of Species**

The Examiner is also requesting a further election based on three groups of species:

Group I (as to the form panel): Figures 1 and 2, 3-6 and 17.

Group II (as to the retention mechanism): Figures 8, 9 and 10.

Group III (as to the spacer): Figures 12, 14, and 16.

Based on the amendments to the claims, it is respectfully submitted that all of the pending claims, namely claims 1-12, and 24-32 are directed to at least the invention of Group I. As a result, it is respectfully submitted that all of the claims, as currently pending, should be examined.
